

# Bin rails

Another way of ensuring an ergonomic working position and saving space is to use bin rails. The higher the rails are, the further they are from the workstation. To ensure an ergonomic working position, use the extension bracket pair on the higher rails. The bin rails are available in six standard module sizes.

Bin rails can be equipped with auxiliary steel shelves and different sizes of Stacking bins. Light bin rail is recommended only for the small stacking bins.

## Bin rails (59)
